

# Video Balun Transmission

## A-148

UTP Video Balun  
video transmission  
distance:0-300m  
(Cat.5/5e/6)  
Lightning protection anti-  
interference:built-in anti-  
static/induction lightning  
protection

## A-153

UTP Video Balun  
Use UTP as per the transmit medium,put video  
signal processing as the difference signal  
between a pair same amplitude,and a polarity  
opposition, process middle long distance video  
transmit,can put the cable electrical resist to  
zero, effective control same

## A-149

UTP Video Balun  
The passive single-  
channel network wire video  
transponder(cat.5:300m,bnc  
male connector),the compact  
integrated design,built-in 2  
levels of lightning protection only  
transmit the video signal,the  
effective transmission multicolor  
video signal 200-350 meter

## A-154

Video Balun Transmission  
Effective transmission  
distance:300-450m

## A-150

UTP Video Balun  
Effective transmission  
distance:450-600m

## A-155

Lightning protection Video  
Balun Transmission  
Effective transmission  
distance:450-600m

## A-151

UTP Video Balun  
video transmission  
distance:0-300m  
(Cat.5/5e/6)  
Lightning protection anti-  
interference:built-in anti-  
static/induction lightning  
protection

## A-156

Video Balun Transmission  
Effective transmission  
distance:300-600m

## A-152

UTP Video Balun  
video transmission  
distance:0-300m  
(Cat.5/5e/6)  
Lightning protection anti-  
interference:built-in anti-  
static/induction lightning  
protection

## A-157

Video Balun Transmission  
The passive single-  
channel network wire video  
transponder(cat.5:300m,bnc  
male connector),the compact  
integrated design,built-in 2  
levels of lightning protection only  
transmit the video signal,the  
effective transmission multicolor  
video signal 200-350 meter

# Video Balun Transmission

## A-158

Video Balun Transmission  
Effective transmission  
distance:400-600m

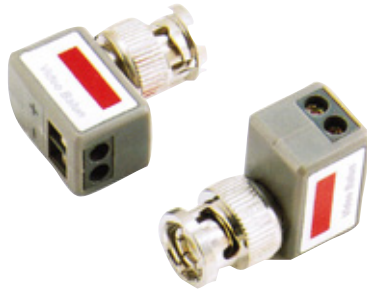

## A-163

Waterproof Video  
Balun Transmission  
Effective transmission  
distance:300-450m

## A-159

Video Balun Transmission  
Effective transmission  
distance:300-450m

## A-164

BNC female to 2PIN connector

## A-160

Video Balun Transmission  
Effective transmission  
distance:300-600m

## A-165

BNC male to 2PIN connector

## A-161

Single Passive Video  
Balun Transmission  
Effective transmission  
distance:100-250m

## A-166

DC male to 2PIN connector  
A:2.1X5.5mm  
B:2.5X5.5mm

## A-162

Single Passive Video  
Balun Transmission  
Effective transmission  
distance:330-400m

## A-167

DC female to 2PIN connector  
A:2.1X5.5mm  
B:2.5X5.5mm

## A-168

DC male to 2PIN connector  
A:2.1X5.5mm  
B:2.5X5.5mm
